previous record, a showing which exceeded expectations.

Crop reports, which are being watched with increasing interest in the stock market, were confused to-day and unfavorable advices from the Northwest were associated with the comparative heaviness of the Hill stocks. The railroad stocks as a whole, however, were the strongest in the list. There was a good demand for the copper stocks, and Amalgamated Copper sold at the high point of the year. The trading in this group was influenced by the continued improvement in the metal trade. The electric stocks also displayed unusual strength, general electric rising three points. The annual report of International Mercantile Marine, showing a decided improvement in earnings, caused a brisk hwing of both common and preferred issues, which improved.

The World Is Getting Better

There is no business on earth more confidential than that of a Trust Company, and a Trust Company official frequently is in possession of information that he would not dare breathe even to his wife. But the thing we have in mind is that the world is getting better. As an evidence of it many wills are being executed in this country in which men of means are making bequests to public and charitable institutions.

There are a great many men in Virginia of this character-God bless them!-whose names will be long remembered after they are gone.
